Joke of the Day- *Four students walked in halfway through the American history test the teacher was giving at the local community college. "Sorry," they said, "we had a flat tire."*

An understanding man, The professor said that if they could all answer just one question correctly, he would give them each an "A" for the exam. The students agreed. So my father handed each one a piece of paper, placed them in four separate corners and said, "Write down which tire was flat."
